

CLEAR A DRAIN

CAUSTIC DRAIN CLEARER

The most powerful
liquid alkali
chemical blend
available!

**CLEARS DRAINS FAST
AND HELPS TO KEEP THEM CLEAR!**

A radical chemical blend containing a sophisticated mixture of alkaline materials and wetting agents to attack varied types of blockages whether caused by hair, grease, fat, oils, etc..

CLEAR-A-DRAIN's heavy duty formulation makes it suitable for both the shock treatment of problem drains or for regular dosing as a preventative maintenance procedure.

- ✓ Versatile – can be used in all types of drains and grease traps
- ✓ Reduces foul odours – kills bacteria, fungi and algae; destroys decomposing and rotting matter that are often the cause of offensive smells
- ✓ No harsh fumes – remains stable at high temperatures
- ✓ Harmless to the environment – causes no hazards when critical dilution is exceeded
- ✓ When dosed regularly it ensures free flowing systems all year round

CLEAR-A-DRAIN is 100% water soluble and mixes with hard or soft water.

Heavier than water the unique formula holds the active chemicals together, allowing them to sink to the source of the problem with minimum loss of activity.

It really is the most powerful liquid alkali chemical blend available!

DO NOT MIX WITH OTHER CHEMICALS
