

Nest Cam IQ indoor

Knows a person from a thing

Nest Cam IQ has a 4K sensor, 12x digital zoom and gives you incredibly crisp, clear 1080p HD video. With HD Talk and listen, you can have a conversation clearly. And Nest Cam IQ is thoughtful about when and how it alerts you. It has advanced algorithms that can identify when someone's in your home, alert your phone and then automatically follow that person as they move through the room.

With a Nest Aware subscription, you can even receive a notification if it sees a friend or family member, or if it detects an unfamiliar person.

And it also has the Google Assistant built in, so it can help manage tasks, answer questions and control your home.

Nest Cam IQ indoor

KEY FEATURES

-  **Person Alerts**
Smart enough to tell a person from something else and then alert you.
-  **Supersight**
Automatically zooms in and follows a person's movements, while still showing you the full picture in crystal-clear video.
-  **HD Talk and Listen**
Noise suppression and echo cancellation allow you to have a conversation clearly.
-  **Google Assistant built in**
Helps you manage tasks, get answers and control your home.
-  **3-hour snapshot history**
Review what's happened, even if you missed an alert. View your 3-hour snapshot history in the Nest app.
-  **24/7 live video**
A 4K, 8-megapixel image sensor with HDR (High Dynamic Range) and 12x zoom lets you see every detail in full 1080p HD. Powerful IR LEDs light the room evenly so that you can even see in the dark.
