

FEATURES

The touch dimmer is compatible with all of our 12Vdc lighting ranges via the Sycamore plug and play system.

It offers a simple plug and play connection system, so a single light or a maximum of 6 lights can be controlled from a single switch. The unit incorporates a soft blue light to aid location in the dark, and a surface mounting fixing method via 2 screws, which are hidden by the clip on brushed chrome fascia plate.

A 12 way distribution block is included.
