The Linda Barker Collection

Elegant solutions for
beautiful bathrooms

Create beautiful spaces with our waterproof bathroom wall panels, the luxurious and modern way to decorate your bathroom. Our beautiful wall panel collections come in a range of sizes and finishes, including marble, stone and wood, offering you a range of design possibilities, allowing you to reinvent your bathroom in a style that is uniquely yours.

Our unique Hydrolock installation system makes it possible to join panels from our Linda Barker, Heritage, Classic and new Neutrals Collections together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for grout, meaning less time cleaning grout lines and mould.

Tiles, its time to move on.

Why Multipanel®

Easy to keep clean

Fully waterproof

Quick and easy to install

30 year warranty

Almost seamless joint with Hydrolock®

Can be installed over old tiles

Visit our website www.multipanel.co.uk to plan your new bathroom and order samples.

Helping to protect our forests for the future

Quality, performance and environmental responsibility are values we uphold to ensure our products meet the high standards we set, not only for our customers, but for our environment too.

That's why the panels in our Neutrals, Linda Barker, Heritage and Classic Collections have all been Forest Stewardship Council® (FSC®) and Programme for the Endorsement of Forest Certification (PEFC) chain of custody certified.

This ensures the timber we use in these collections originates from responsibly managed forests and our finished products comply with globally recognised ecological, social and economic standards. These certifications and accreditations form part of a rolling programme of environmental and sustainability initiatives within both our manufacturing processes and design approach including:

- Reducing energy in transportation by sourcing materials made in the UK.

- Recycling 99% of post-production waste into Biomass materials and other products - reducing landfill and contributing to the circular economy.

- Ensuring 100% of our plywood panels are recyclable*.

- Manufacturing our panels in the UK to reduce our carbon footprint*.

- Offering a 30 year warranty on our panels to ensure they withstand the test of time*.

Only applies to plywood panels in the following collections; Neutrals, Linda Barker, Heritage, Classic

MADE IN BRITAIN

Hydrolock® for beautiful continuous walls

To ensure our panels can be installed to show off their true potential, we created Hydrolock, a unique solution which makes it possible to join panels from our plywood collections (Neutrals, Linda Barker, Heritage and Classic) together to create an almost seamless expanse of waterproof wall.

Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for profiles and can even be installed on uneven walls.
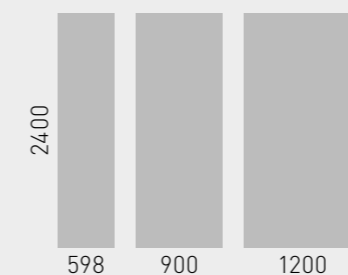

Hydrolock panels are available in a range of widths for ease of installation;

2400 x 598 mm

2400 x 900 mm

2400 x 1200 mm

The Hydrolock joint reduces the finished face by 20mm i.e. 2400mm x 1200mm becomes 2400 x 1180mm. Straight edge panels are also available.

2400

598   900   1200

Salvaged Planked Elm
The Linda Barker Collection

The *Neutrals* Collection

The perfect partner to feature walls.

Balance the boldness of our feature wall panels with the subtlety of our Neutrals Collection. A delicate balance of neutral tones, this range is reminiscent of painted walls with a smooth eggshell finish and is designed to pair perfectly with our Linda Barker, Heritage and Classic Collections.

These shades would work equally well on their own for a minimalist, contemporary look.

Easy to keep clean

Fully waterproof

Quick and easy to install

Linda's design tips; Tip 1

"Give yourself time to plan your perfect space. Creating a mood board will give you the opportunity to mull things over and allow the design to grow on you."

Tip 2

"Personally, I love dark moody themes and would lean towards decors such as Nero Grafite, for a dramatic look and for a lighter and brighter style, Calacatta Marble or Soapstone Stellar are wonderful choices."

Wall panel profiles

To finish off edges or to join panels in a corner, the appropriate profiles must be used. The profile type, size and colour you need will depend on the panels you have selected. Use the table below to help you select the right profiles for your design.

| Wall Panel Profiles	Neutrals, Linda Barker, Classic and Heritage *Aluminium 11.5mm deep*
Internal Corner	Type A — 14mm, 11.5mm ● ○ ○ ○
External Corner	Type B — 11.5mm, 17mm ● ○ ○ ○
End Cap (L-Shaped)	Type C — 11.5mm, 6.5mm Face ● ○ ○ ○
Mid Joint	Type D — 11.5mm, 11mm Face ○ ○ ○ ○
Last Corner	Type Y — 17mm, 11.5mm, 20mm ● ○ ○ ○
Flush Corner *For external or internal corners*	Type 100 — 11.5mm, 11.5mm, 9mm ● ○ ○ ○
Base Profile	Type X — 35mm, 13.5mm ○
Quadrant End Cap	Type E — 12mm, 11.5mm ● ○ ○ ○

Available Profile Colours

● Black   ○ White
○ Satin   ◑ Polished

NEW Invisible Corner   Type 101

30mm
11.2mm
16.5mm

Our new 'invisible' internal corner profile has a hidden edge for a completely metal free finish.

Simply slot the panels into place and seal with your chosen sealant colour. The Invisible Corner is perfect for straight walls and is compatible with our plywood collections (Neutrals, Linda Barker, Classic, Heritage).

With the profile completely hidden from view, the Invisible Corner is supplied in Aluminium only.

Available Lengths
All profiles are supplied in 2450mm lengths.

Please note: *All 3D drawings are a generic representation of the profile type Dimensions specific to each range are shown on the line drawings.*

Bath and shower seal

Seal and protect your wall panels with this innovative system.

The innovative and stylish two part shower tray and bath sealing system from Multipanel comprises a PVC strip and a high performance white silicone. The 'movement joint' expands and contracts to offer a reliable bottom seal for Neutrals, Linda Barker, Classic, Heritage and Economy. Comes in 1.85m lengths, 2 in a pack.

Invisible Corner

FSC C128180 — FORESTS FOR ALL FOREVER ™   MADE IN BRITAIN

Industry Leading 30 Year Warranty

- All Multipanel collection products supplied from 1st July 2013 are CE marked.

- Declarations of all product performance are available at multipanel.co.uk.

- Installation guidelines and full details on each product warranty can be downloaded from multipanel.co.uk, or e-mailed on request.
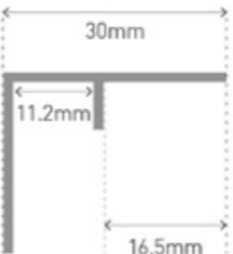

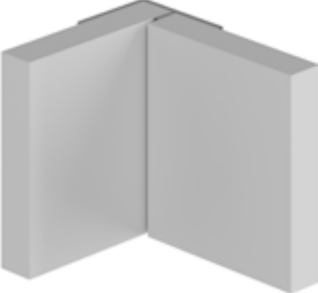

- Multipanel High Grab Panel Adhesive/Sealant must be used and is available to order from your local distributor or showroom.

- Multipanel 30 year warranty* covers the unlikely failure of the product, and will be invalid if any published installation and care guidelines are deemed not to have been followed.

Sealant and panel adhesive

This high quality sealant and panel adhesive is specifically developed for Multipanel panels and is available in 4 colours. Clear and white silicone sealant also available.

Why Multipanel

Style and design are key to creating the bathroom of your dreams. But there are a whole host of other added benefits you get when using our bathroom wall panels instead of tiles;

	Multipanel	Tile
Fully waterproof	✓	✓
No grout required	✓	✗
Resistant to mould	✓	✗
Quick and easy installation	✓	✗
30 year warranty	✓	✗
Made from sustainable sources	✓	?
Made in UK	✓	?

What you'll need...

Multipanel waterproof wall panels are specially designed for easy installation. For the best result, we recommend that our plywood panels are joined together using our unique Hydrolock tongue and groove joining system. Panels using this system can be installed directly onto almost any surface, including uneven walls and over the top of old tiles. Multipanel High Grab Adhesive should be used for a safe and secure fit.

To join panels at a corner and to finish any exposed edges, the appropriate profile should be used. Panels must also be properly silicone sealed at all vertical edges, whether they are being attached to profiles, shower enclosures or joined using Hydrolock to ensure a 100% watertight result.

Installation tips...

MULTIPANEL®

- Panels should be installed on the top of shower trays or baths using a Multipanel seal kit.
- Match your profile colour to your shower enclosure and shower fittings.
- Seal your installation using one of our colour match sealants (see page 42).
- Carefully measure your area to select the right panel width, choose from 1200mm, 900mm and 598mm (remember, the Hydrolock joint reduces the finished face by 20mm).
- Panel off cuts can be used behind sinks for a coordinated look. Just ensure you seal all exposed edges with profiles and silicone.

For information on how to install our products, please visit our website
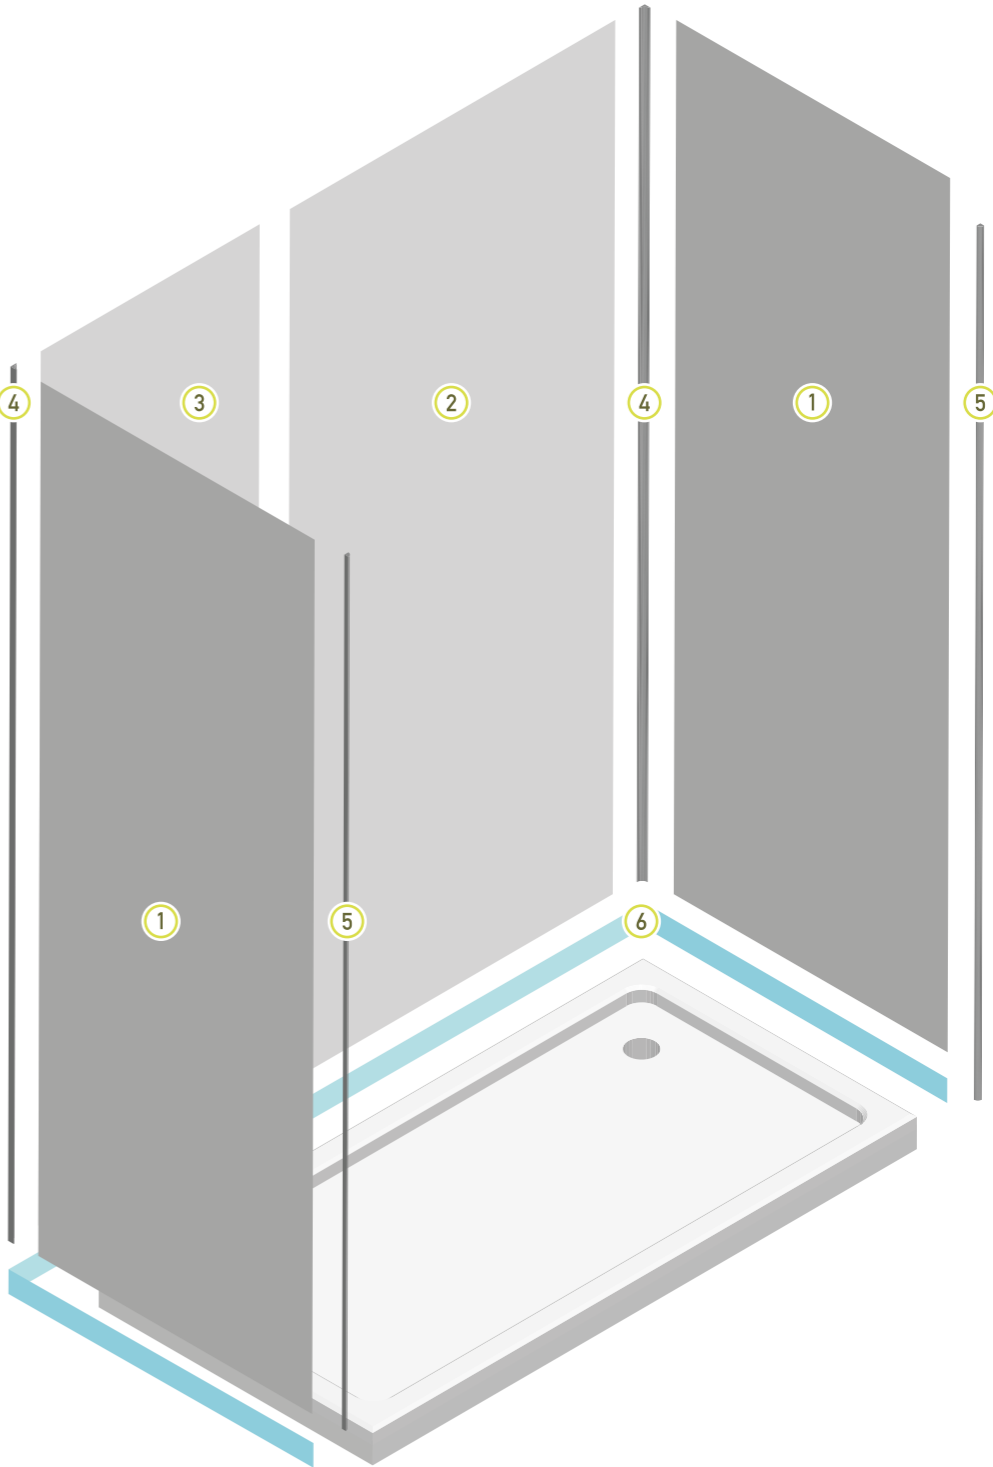

The above illustration shows a typical installation of a 1800mm x 900mm shower enclosure

① 2400 X 900 Square edge panel x 2	⑤ End cap profile x 2
② 2400 X 1200 Hydrolock panel x 1	⑥ Seal kit x 2
③ 2400 X 598 Hydrolock panel x 1	High grab adhesive x 3
