A

FAQ - Questions and answers

> How do I cut AluSplash?

Answer: Use a circular saw with an aluminium blade to cut the splashback to size. Use a hole cutter and jigsaw blade to cut out holes for plug sockets and switches. Please always cut from the back and NOT on the side which will be on display.

> How do I clean AluSplash?

Answer: For best results use an anti-static polish such as Vuplex, with a microfibre cloth

> How do I install Alusplash?

Answer: Please watch our installation video <https://www.youtube.com/watch?v=a6GH0p3ATA>
